PUBLIC HEALTH ACT (11 and 12 Vict., cap. 63).

---

*Report to the General Board of Health on a further Inquiry into the Sewerage, Drainage, and Supply of Water, and the Sanitary Condition of the Borough of CALNE.* By GEORGE T. CLARK, Superintending Inspector.

MY LORDS AND GENTLEMEN,

*London, 1st October 1850.*

I HAVE the honour to inform you that, in obedience to your instructions, I visited the borough of Calne on the 18th ult., and there held, in the Town Hall, at noon, the further inquiry rendered necessary in consequence of the boundaries within which, in my report of the 4th October 1849, I have recommended the application of the Public Health Act, being different from those of the petitioning borough of Calne.

The notices of this further inquiry, directed by the Public Health Act, were published in the "Devizes and Wiltshire Gazette" and the "Wiltshire Independent" newspapers of the 29th of August last, and were affixed to the usual places of publication in the borough. The meeting was attended by but few persons. I explained at some length the general provisions of the Act and the particular recommendation which rendered the present visit necessary. No objections were urged against the proposed boundary.

The map annexed to the present report points out this boundary, and distinguishes between those parts of the area within and those without the municipal borough.

I remain,

My Lords and Gentlemen,

Your obedient servant,

GEO. T. CLARK.
